postponement of the sale of the Kansas Pacific railroad, set for February 16, 17

Ex-Governor George Hoadley, of New York, special counsel for the govern-ment in the Union Pacific cases, arrived in St. Louis on Friday for the purpose of asking the United States District court to postpone the sale and allow the government the privilege of redeeming the claims of first mortgage bondholders on the eastern and middle divisions. He was also to ask for the appointment of a

receiver.

By this means it was expected that the government would be able to obtain a better price than the reorganization committee had offered.

Mr. Hoadley was met here by the attorneys representing the reorganization committee and the stockholders. They held a conference. The representatives of the reorganization committee offered to increase the committee's bid equal to the amount of the principal of the government indebtedness. The offer was

The appointment of a deputy to Clerk A. M. Bergere is settled and will be announced next week.

Governor Otero expects to go north to-morrow evening to meet Chief Justice Mills at Raton and return with the judge to this city.

It is reported that Hon. Jose D. Sena is a candidate for appointment as clerk of the Territorial Supreme court. Com-petent and qualified he for the position. Sheriff Bursum, of Socorro county, who is in the city, is believed to be here on an important political mission and in connection with some appointments that may be announced from the executive

office shortly. Mr. Geo. L. Wyllys, who has made a very competent and courteous clerk of the Territorial Supreme court, says he is ready and willing to step out pretty soon and that without much fuss or formality. It is universally admitted that Mr. Wyllys was one of the best of-ficials under the Democratic regime.

He may resign at an early date. The department of the interior is endeavoring to procure, in the pending appropriation bill in congress an item of \$1,500 to be paid to an attorney, to be employed to look after the interests of the Pueblo Indiana, in lead matters. It is believed
